Founded	1998
Revenue	\$248M
YoY growth	9%
EBITDA margin	31% (mature, profitable)
Net revenue retention	104%
Deal type	Majority buyout - sponsor-led process
Indicative enterprise value	~\$900M

Process Overview

Halsted Industrial Software is a mature, profitable provider of manufacturing execution and plant-floor software to mid-size industrial manufacturers, serving over 900 customers.

Sterling & Kade is running a formal sale process on behalf of the founder-owners, who are seeking a control transaction (majority buyout) rather than a minority growth investment. Indicative bids are due at the end of the process's second round.
